

**Confederation of Finnish Industries EK - EBRD webinar:
Business Opportunities with the EBRD in Renewable Energy
*Spotlight on opportunities in the EBRD's green and just transition initiative***

The EBRD finances energy network extensions and modernisation projects that facilitate the integration of renewable energy sources into existing systems. The Bank works with governments and regulators to develop projects, policies and regulatory frameworks required to support transition to renewable energy. The EBRD supports the European Green Deal, the implementation of the Next Generation EU and its Recovery and Resilience Facility at Member States and beyond, rolling out renewable energy projects providing opportunities for Finnish companies.
